

# iHistory

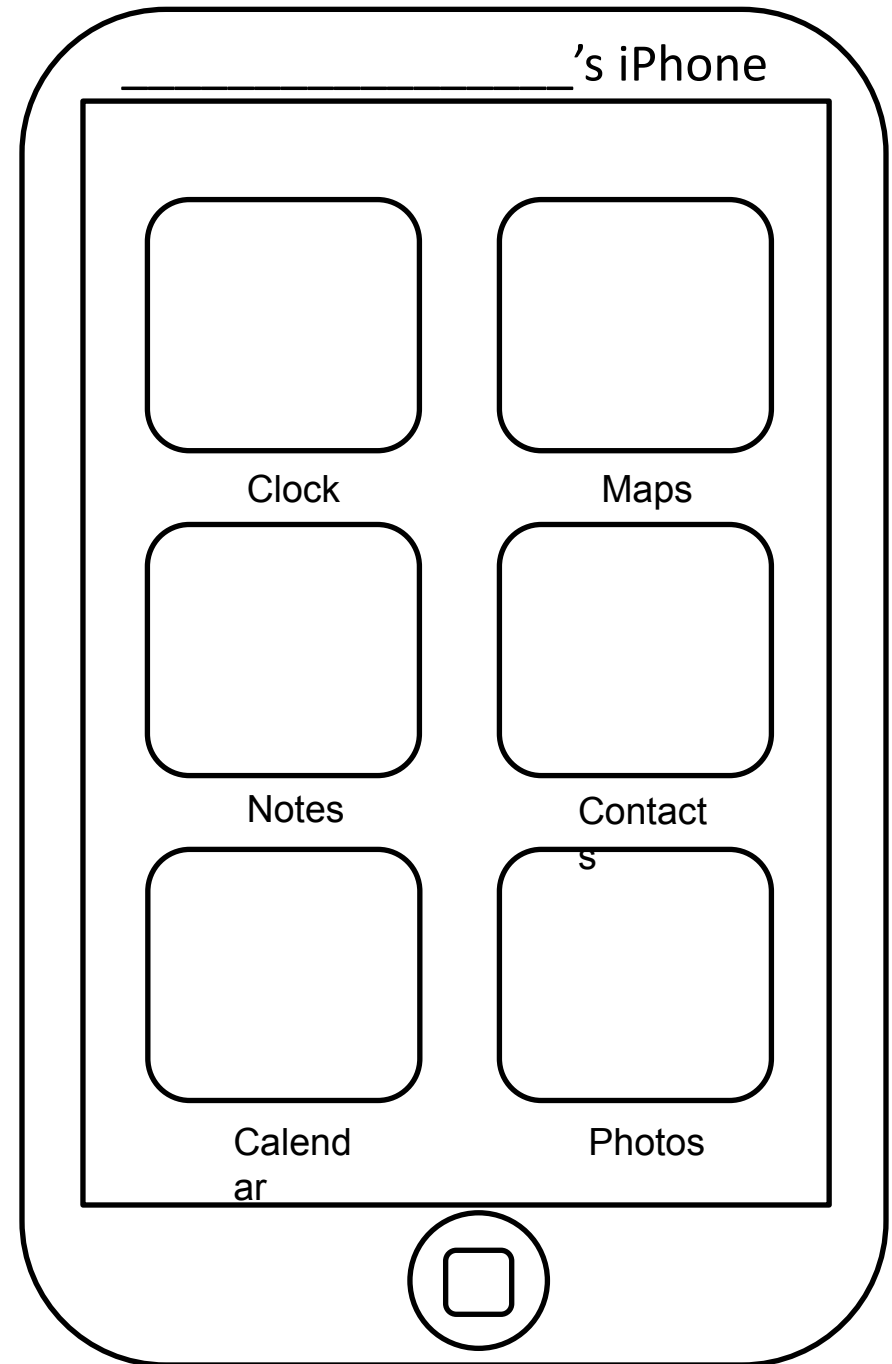

20 Points

Skills Required:

*Your task: Follow the directions and templates on the following pages to create an iPhone for a historical figure.*

1. Fold a paper in half and trace this outline of an iPhone onto the right side of the paper. Include the App boxes and App names.
2. Across the top of the iPod write the person's name such as "Julius Caesar's iPhone."
3. Create a colored icon for each of the Apps on the iPod.
4. Divide the back side of the paper into six boxes as shown on the back of these instructions.
5. Complete the instructions on the back for each box.
6. When complete fold your paper in half and put your name on the back.

### **Clock**

Write the year the person was born, the year they died and the year of one other significant event in their life.

### **Map**

Draw and color a map of the person's civilization including all major geographic features.

### **Notes**

Write 3 facts about the person.

### **Contacts**

List two other historical figures, places or objects that would be linked to this person. Explain how they are connected.

### **Calendar**

Write out 5 things the person would do in a typical day.

### **Photos**

Draw and color a picture of the person.
